

NOT ALL WOMEN ARE EAGER FOR SUFFRAGE

Wives of Prominent Politicians Satisfied to Let Husbands Run Politics.

SOME SAY IT IS FAD
Others Think Ballot Has
Worked Benefit Where It
Has Been Granted.

By International News Service.

CHICAGO, June 11.—Woman's suffrage loses by a decided majority in a poll taken among the wives of prominent politicians attending the Republican national convention. The consensus of opinion is that one politician in the family is enough.

These women, who have spent most of their later years in the mad whirl of politics, are liberal and tolerant; most of them are willing that women should vote if they wish, but as for themselves, they would not give one snap of their pretty fingers for the franchise.

Among them there is not one ardent suffragist. On the other hand, there are those who think women might spend their time to much better advantage minding babies, running a household, or—attending national conventions.

Some of the comments heard about headquarters were:

MRS. LAFAYETTE B. GLEASON, wife of the secretary of the Republican national committee—I am not a suffragist, probably because Mr. Gleason is. He thinks I would look cute carrying a banner in a parade, but he only says so for meanness. No, I have never seen the time when I did not think that Mr. Gleason would take care of all the political activity necessary to the welfare of the family. Besides, I do not believe that women are in their proper place parading the streets and running politics.

MRS. JOSEPH M. DIXON, wife of Senator Dixon, manager of the Roosevelt campaign—The woman who takes an active interest in politics and wants to vote should have that privilege. There are many clever and aggressive women who could do much good if they had the right of franchise, and they have done good in such states as have granted them the right to vote. But, for myself, I do not want to vote. I believe that my husband has my interests at heart, and represents them at the polls just as I would represent them if I were to vote.

MRS. JOSEPH B. KEATING, wife of the Taft steamship expert from Indiana—I have seen so much of the rows and squabbles of politics that I have no desire to force myself into the game. Some women have a burning desire for a good fight such as politics has to offer, and others do not know how strenuous politics is in this country. For my part, I have fun enough watching the street roller work without aspiring to be its engineer.

MRS. WILLIAM HAYWARD, wife of the secretary of the national committee—Woman's suffrage is all foolishness, a form of hysteria. It will die out as suddenly as it bloomed and will leave no better than a scar. There does not seem to me to be the remotest chance of it being universally adopted.

MRS. DAVID MULVANE, wife of the national committee member from Kansas—I am not in favor of women voting. I am satisfied with present conditions. I believe the laws are more liberal toward women than toward men. They certainly are in my state. Of course, there may be states where the women are not properly protected. The working woman needs the protection of the law to assure her a proper wage and decent working conditions, but long steps are being taken in that direction, and I believe that the needed reforms will be effected almost as rapidly as necessary legislation can be passed.

MRS. WILLIAM T. LOWE, Colorado springs, sister-in-law of Mrs. Roosevelt—I voted for Roosevelt and Taft and went in for suffrage when it first became an issue. It is a good thing in many respects for women to vote, but I am not violent in favor of universal suffrage.

MRS. WILLIAM E. BORAH, wife of Senator Borah, committee member from Idaho and Roosevelt leader—I am in favor of woman's suffrage as a movement, but I have never been particularly anxious to vote. I believe that as a rule women are more consistent than men, and I believe that they would pay less attention to political expediency and more attention to the needs of the country. I have been interested in the results accomplished by women in such states as have given women the ballot, and I believe they have done all that was expected of them.

MRS. C. E. LYON, wife of the committee member from Texas—I am mildly in favor of woman's suffrage, just lukewarm in my fight for the ballot.

DOCK STRIKE HOLDS UP STEAMER SAILINGS

Trouble Begun in England
Fast Spreading to Ports
of France.

LONDON, June 11.—The atmosphere near the London docks has become heated. In an inflammatory speech to the strikers today Ben Tillett, the leader, made a violent attack on Lord Devonport, chairman of the port of London authority, whom he declared responsible for the strike. He continued:

The strikers attempted to hold up a meat convoy. General Leggett of the Transport and General Land Transport Union's trade union and others were arrested.

The Sailors' and Firemen's union decided to vote on the question of joining the Transport workers and the result will be announced June 17.

**BEST FEATURE OF
ELKS' PROGRAMME**
Heavyweights of Lodge Will
Run 100 Yards for Championship.

Chairman E. F. Annis, of the Elks' Purple Day committee, and his associates, George J. Merritt and Dana T. Smith, who have been busily engaged in preparing the programme for the annual outing June 22 at Wandamere where all orphans of the city will be the guests of the Elks, announced last night that they had secured a great feature for the athletic programme of the day. Three prominent Elks, each of whom tips the beam well over the 250 pound mark, have agreed to meet in a 100-yard dash for the heavyweight running championship of the order.

For some time past the heavyweights of the Elks' lodge have argued over, which of the "white hopes" possesses the most speed. This argument has developed into a burning question and many wagers have been laid, which will be settled after the big event of June 22. On that date Martin E. Mulvey, A. J. Davis and Harry Rand will toe the mark at Wandamere and on the crack of the pistol will set out on the record-breaking dash which will determine the question of supremacy. All of the contestants have declared in advance that they will not accept designation on the American Olympic team, as business cares precludes taking the overseas journey.

"The 'heavyweight dash' will be the topline for an athletic programme which will feature the Elks' annual outing. All orphans of the city will be entertained by the Elks, this being the feature of the 'Purple Day' as celebrated by Salt Lake lodge No. 85.

Swimming and diving contests, races, ball games, wrestling matches, and other forms of athletic entertainment will contribute to the pleasure of the orphans while the many features of Wandamere and unlimited refreshments of the kind dear to childhood will make the day memorable to the unfortunate children, whose lack of parental care is made up for by the big-hearted Elks on this date of every year.

An automobile ride over the city on the evening of June 21 will serve as the curtain raiser for the "Purple Day" entertainment and a run by the fire department for the special benefit of the orphans will be witnessed at the conclusion of the parade.
